29 May 1963

**MEMORANDUM FOR: Director, National Reconnaissance Office**

The DCI wished the following points to be passed on to the NRO:

a: Cuban overflights should not be extended to overfly Haiti under any circumstances. Any reconnaissance over Haiti which might be approved should be separated from activities over Cuba.

b: The NRO should make arrangements for the take from the approved low-level flights next week to be expedited to Washington for immediate read-out by NPIC. NPIC will be informed of a requirement for a priority read-out separately. Arrangements should be made to alert NPIC in advance of the arrival of the material.

c: DCI further wishes the NRO to insure that the material that is obtained as a result of the AF operation of the KC-97 over Haiti is forwarded promptly to NPIC for read-out in the same manner as other reconnaissance photography. NPIC should be informed when to expect the material.
